

“Authorization and Contract for Inspection Services”

(Two pages)

Purpose and Scope: The object of this inspection is to provide a professional, good faith opinion of the apparent condition of structures and systems of the residential real estate described above, on the date and the time of observation. The inspection and report will conform to the current standards of practice set forth in Chapter 440 of the Wisconsin Statutes and the administrative rules applying to that chapter. Home inspection is an activity that is regulated in Wisconsin, and so this contract will refer to sections of Wisconsin law that affect this contract.

The inspection is designed and intended to detect observable conditions of an improvement to residential real property, subject to certain limitations. The inspection will cover all areas as required under Wisconsin Chapter 440 and its administrative rules.

The inspection is not technically exhaustive. This inspection does not cover any latent defects or defects not reasonably observable during the inspection, including but not limited to, recent repairs, paint or covering that may conceal current or prior defects, whether deliberately concealed or otherwise. The inspection will not and cannot alert Inspector or the Client to conditions of the structure that are concealed, not readily accessible, or would require cleaning, alteration, excavation, or destructive testing. The Client understands that the Inspector will not dig, probe, dismantle equipment, or remove permanent materials or items that would be damaged by such, nor will Inspector enter unsafe or inaccessible areas to perform the inspection. Other limitations encountered during the inspections may be noted in the report itself.

1. Exclusions and Limitations: The following areas are excluded from the inspection under this contract:

- Calculating the strength, adequacy or efficiency of an improvement to residential real property or a component of an improvement to residential real property;
- Entering any area or performing any procedure that may damage an improvement to residential real property or a component of an improvement to real property, or entering any area or performing any procedure that may be dangerous to the home inspector or other persons;
- Operating any component of an improvement to residential real property that is inoperable;
- Operating any component of an improvement to residential real property that does not respond to normal operating controls;
- Disturbing insulation or moving personal items, furniture, equipment, vegetation, soil, snow, ice, or debris that obstructs access to or visibility of an improvement to residential real property;
- Determining the effectiveness of a component of an improvement to residential real property;
- Predicting future conditions, including the failure of a component of an improvement to residential real property;
- Projecting or estimating the operating costs of a component of an improvement to residential real property;
- Evaluating acoustic characteristics of a component of an improvement to residential real property;
- Inspecting for the presence or absence of pests, including rodents, insects and wood damaging organisms;
- Inspecting cosmetic items, underground items, or items not permanently installed;
- Disassembling any component of an improvement to residential real property, except for removing access panel that is normally removed by an occupant of real property.

The inspection also excludes opinions on:

- The life expectancy of an improvement;
- Causes for needing major repairs;
- The methods, materials, or cost of making repairs or corrections;
- The suitability of improvements or components of improvements for a specialized use;
- The presence of mold, the type of mold, potential locations of mold or effects of mold.

The Client agrees that the purpose of this home inspection is an attempt to prevent Client from incurring unnecessary or unexpected costs to repair the building. The purpose of the home inspection is not to reduce the risk or likelihood of personal or bodily injury. Client therefore agrees not to sue inspector for bodily or personal injury.

2. Warranty: No warranties or guarantees are expressed or implied as a result of this inspection. The inspection report is valid only for the day and time of the inspection; building systems can develop problems at the most unexpected times or even on the day of the inspection. The Inspector is providing no guarantee or warranty. The Client recognizes that there is NO REPRESENTATION OF WARRANTY OR GUARANTEE OF EXPECTED OR REMAINING FUTURE LIFE FOR ITEMS INSPECTED. The inspection and report is not an insurance policy. Client agrees to arrange the purchase of such insurance policy from others if Client so desires.

3. Confidential Agreement: Client agrees not to provide inspection report to any third party without the permission of the Inspector. In the event that Client provides home inspection report to a third party without the permission of the Inspector and the third party relies on the inspection report, Client agrees to indemnify and hold harmless Inspector from any claims made by the third party against the Inspector and for all reasonable attorney's fees incurred in defending said claims.

4. Complaint Resolution: If the Client feels that there was some deficiency or flaw in the inspection, he shall contact the Inspector and meet at the property. The purpose of this meeting is to discuss the problem and to allow the Inspector a chance to observe the problem firsthand, as it was discovered, without alteration or repair. *If you have a problem with the inspection, call the Inspector right away.*
